ABSTRACT

This report summarizes 1980-84 data for Howard Community College (HCC) pertaining to student characteristics; credit instruction and degrees; credit-free instruction; HCC employees; and facilities and services. Part 1 provides data on full-time equivalent enrollments and projections; and enrollment by gender, attendance status, credit hours carried, minority status, full-/part-time status, age group, and residence. Part 2 provides data on degrees and certificates awarded; enrollments by program type; transfer program enrollment; and cooperative education enrollment. Part 3 presents information on the Continuing Education program, including sites, programs, faculty distribution, and characteristics of students enrolled. Part 4 contains data on HCC employees, including occupational classifications by race and sex and distribution of faculty by rank and sex. Part 5 details the use of HCC facilities by community organizations; and provides information on library and audio-visual equipment use and physical plant assets. Study highlights include an increase of 41% in full-time equivalent (FTE) enrollments from 1,680 in fiscal year (FY) 1980 to 2,368 in FY 1984; an increase of 38% in division credit FTE enrollments between 1980 and 1984; and an increase of 50% in credit-free FTE enrollments. PREFACE

This research report summarizes data compiled by Howard Community College to meet external information and reporting requirements. We hope that the summary data provided in this report will be useful in examining trends over a five-year period, and will serve as valuable input for the College's annual and long-range planning processes.

The report summarizes data from Fall 1980 to Fall 1984, or from Fiscal Year 1980 to Fiscal Year 1984, depending on how the data were collected. Statistics reported are from the respective HEGIS cycles in October-November of each year. The report is updated annually so that a current five-year statistical profile of the College is available on a continuing basis.

Included in the profile are aggregated and disaggregated data pertaining to: (1) Student Characteristics; (2) Credit Instruction and Degrees; (3) Credit-Free Instruction; (4) Howard Community College Employees; and (5) Facilities and Services.

Comments or suggestions regarding this publication may be addressed to the Office of Institutional Research.

Susan K. Radcliffe
Coordinator of Institutional Research

SUMMARY OF FINDINGS

RESEARCH REPORT NUMBER 40

Title: Statistical Profiles - FY 1984

Authors: Susan K. Radcliffe and Cheryl L.B. Reed, Office of Institutional Research

Technical Editing and Layout: Charlotte Monroe

Purpose: To provide descriptive data of Howard Community College's students, credit-instruction and degrees, credit-free instruction, employees and facilities and services during the 1984 fiscal year.

Methodology: This data has been presented over a five-year period in order to serve as a reference for the college's annual and long-range planning processes. This study is a joint effort between the Office of Institutional Research, the Computer Center and other Howard Community College offices. As of Fall 1984, enrollment statistics now include all sessions.* Therefore, these statistics may not be comparable with documents from past semesters. However, additional session enrollments were almost negligible prior to Fall 1983.

Content: The following variables have been examined and then compared to Fall 1984 student enrollment and employee classifications: attendance status, full-time equivalencies, sex, credit-hours, race, age, residence, program type and degrees awarded. Additionally, Howard Community College's facilities and services usage has been examined for the 1984 fiscal year.

Highlights: Dramatic increases in enrollment took place over the five year period with a leveling out in fiscal year 1984.

Total FTE enrollment increased by 41% from FY 1980 to FY 1984, from 1680 FTE in FY 1980 to 2368 in FY 1984.

Division credit FTE enrollment showed an increase of 38% from 1263 FTE in FY 1980 to 1736 FTE in FY 1984.

Credit-free FTE grew by 50% from 410 FTE in FY 1980 to 611 in FY 1984.

*Traditionally, "Fall" meant the regular fall semester. Now, where noted, "Fall" includes the regular session, minimester, plus any additional special sessions offered through Continuing Education or Cooperative Education.

Enrollment by Gender

Female enrollment increased sharply from FY 1980 to FY 1982, then leveled off and declined somewhat, although there are still almost twice as many females as males enrolled.

Male enrollment has maintained a slow but steady increase over the five-year period but has not caught up with female enrollment.

Age Group Enrollment

The 21-30 age group has increased steadily over the five-year enrollment period.

The under 20 group increased sharply in 1982, then increased only slightly in FY 1983 and decreased slightly in FY 1984.

The 31-40 group increased only from FY 1981 to FY 1982, then began a decline.

The 51 and over group forms a smaller (about 5%) but steady enrollment group.

Program Type

There have been dramatic changes in the patterns of program types.

In FY 1980 occupational program enrollments far outnumbered transfer enrollments. Transfer enrollments have increased steadily, however. In FY 1984 the two were approximately equal.

PART THREE

CREDIT-FREE INSTRUCTION

TABLE XVI
OFFICE OF CONTINUING EDUCATION

I. GENERAL PUBLIC PROGRAMMING

Offers lifelong learning opportunities through courses designed to address the personal and professional needs of Howard County adults. Courses are held at HCC, in various public schools and in learning centers throughout Howard County. Content ranges from career alternatives and vocational/technical development through historical/cultural explorations and languages to personal development. New options include International Education and a Weekend College featuring credit and credit-free courses.

II. BASIC SKILLS/FOREIGN-BORN PROGRAMMING

Offers free or low cost classes to Howard County Adults (16 years and older) which emphasize reading, mathematical, social, and communication skills. Special classes (ESL) are available for foreign-born individuals who wish to improve vernacular English.

III. CAREER PROGRAMS AND COMMUNITY DEVELOPMENT

This continuing education area includes credit-free courses for real estate, police, nurses, allied health and food service personnel, seniors, Education and Training Center, professional updates, initial licensure and certification, plus health concerns of the general public. Continuing Education Units (CEUs) are provided for those who need them to maintain a license or employment. Cosponsorship and course development with institutions, organizations, and agencies are expanding areas of growth.

IV. BUSINESS AND INDUSTRY

The Office of Business and Industry designs and offers courses--both credit and credit-free for the businesses in Howard County. Courses for specific businesses are scheduled at sites and times convenient to their employees and instructors tailor content to fit corporate needs. In addition, the Office cosponsors the Small Business Training Center with the Chamber of Commerce, offers one-day sessions, and also conducts a series of high-technology short courses. A "Schedule of Courses for Business and Industry," distributed to all businesses in the County twice a year, describes these as well as the current business topics also taught through this Office.

PART FIVE

FACILITIES AND SERVICES

TABLE XXVII

COMMUNITY USE OF HOWARD COMMUNITY COLLEGE FACILITIES
1984 - 1985

Howard Community College, a center of higher education and the arts in Howard County, serves thousands of residents each year through academic, cultural, athletic and community programs. During this academic year, the college anticipates that more than 80 community groups will use HCC's theatre, gallery, physical education center, classrooms and campus grounds in FY 85 for meetings, exhibits, performances, athletic activities and civic events.
